

Commission's "Order on Rehearing" issued on July 21, 1997 in Docket No. RP97-116-004. As directed, Koch revised the tariff sheets to allow Customers requesting new firm transportation thirty (30) days to execute a service agreement after its tender by Koch if the term of the contract is greater than one year and the agreement to be executed is not identical to the original request for service submitted by the Customer. If the original request by the Customer is identical to the contract to be executed then the tariff language approved in a letter order dated June 6, 1997, shall remain in effect.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Regulations. All such protest must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection.

Linwood A. Watson, Jr.,
Acting Secretary.

Longhorn Partners Pipeline; Notice of Petition for Further Review of Asset Valuation

August 1, 1997.

Take notice that on July 31, 1997, Longhorn Partners Pipeline, L.P. (Longhorn), pursuant to Rule 207 of the Commission's Rules of Practice and Procedure, 18 CFR 387.207, and the Commission's Order on Petition for Declaratory Order issued December 20, 1995, 73 FERC ¶ 61,355 (1995), filed a petition for further review of the asset valuation that was the subject of the 1995 order.

The 1995 order allowed Longhorn to include in its cost of service the full purchase price of a crude oil pipeline to be acquired from Exxon Pipeline Company (Exxon). The 1995 order provided, however, that "if Exxon or any of its affiliates should become an equity owner of the [Longhorn] system,

the proper valuation of the Baytown to Crane segment, as to Exxon's ownership, shall be subject to further review." 73 FERC ¶ 61,355 at 62,113.

Longhorn indicates that Exxon will acquire an equity interest in the Longhorn partnership. Accordingly, Longhorn requests a further valuation review and a determination that it may use in its cost of service the purchase price of the pipeline segment it is acquiring from Exxon, notwithstanding Exxon's anticipated equity participation in the Longhorn Partnership.

Any person desiring to be heard or to protest said filing must file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with 18 CFR 385.214 and 18 CFR 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before August 15, 1997. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

Northwest Pipeline Corporation; Notice of Request Under Blanket Authorization

August 1, 1997.

Take notice that on July 29, 1997, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84108, filed in Docket No. CP97-673-000 a request pursuant to Sections 157.205, 157.216, and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205, 157.216, and 157.211) for authorization to partially abandon certain existing facilities at its Idaho State Penitentiary Meter Station in Ada County, Idaho, and to construct and operate upgraded replacement facilities, to accommodate a request by Intermountain Gas Company (Intermountain) for increased delivery capabilities at this point for service under authorized firm transportation agreements. Northwest makes such request under its blanket certificate issued in Docket No. CP82-433, pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request on file with the Commission and open to public inspection.

Northwest proposes that the Idaho State Penitentiary Meter Station be upgraded by removing the existing 2-inch and 3-inch regulators, one 6-inch orifice meter, the 4-inch x 6-inch relief
